

AP Physics 1 Summer Assignment

Summer Assignment (Due the first day of class): Read through and complete all questions and problems in Chapters 1 and 2 of the eBook. Much of the material will be review from previous science classes while trigonometry and vectors might be new to you. Learn them well since they will be with us throughout the entire year. APlusPhysics and Khan Academy are excellent resources if you are having trouble. If your work is not complete or legible, you must redo it. Physics is challenging, but also rewarding. You **MUST** be an active learner in class and while doing the homework to be successful.
